3. Cancer Clinical Trials

The Florida Cancer Plan 2015-2020 includes goals to increase the number of Floridians with access to and participation in cancer clinical trials. On August 7th, the American Cancer Society Cancer Action Network (ACS CAN) hosted a policy forum on clinical trials in Orlando, which included an informative and productive panel discussion on clinical trials barriers. Dr. Christopher Cogle was the panel moderator. Two additional CCRAB members, Representative Jamie Grant and Dr. Asher Chanan-Khan, were panelists. We look forward to working collaboratively with all stakeholders on this important issue.

4. CCRAB Member & Staff Spotlight: Dr. Patricia Geddy

We are pleased to welcome CCRAB's newest member, Patricia Geddy. Dr. Geddy was appointed by the Florida Nurses Association (FNA). We are excited about her participation on the Council as we continue our work to reduce Florida's cancer burden.
